

Managed IT

About our IT solutions

Technology leadership that allows your business to stay updated with technology changes, while reducing cost and wastage.

Interlinked IT solutions involve proactive management of your IT assets or infrastructure on behalf of your business, provided with a predictable billing model where you are able to accurately know the monthly cost of the service.

Our tailored services reduce costs by allowing your business to secure capabilities as needed rather than having to estimate and commit to technology needs years in advance.

We align our offerings with the challenges and goals of your business. That is why we start by conducting a complimentary IT Audit on which we base our solution.

Benefits of our services to your business

- ✓ Replace capital expenditure with predictable monthly cost
- ✓ Scalable solution allows you to upgrade or downsize as needed
- ✓ Increased efficiency by freeing up resources to focus on business activities
- ✓ Full pre-transition activities by Interlinked to ensure smooth implementation
- ✓ 99.99% network performance with onsite and remote support and monitoring
- ✓ Comprehensive service level agreements

Scope of our services

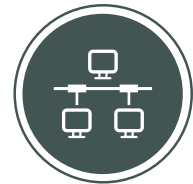

IT Consulting

Our experienced IT consultants dedicate time to understand your unique business situation and devise tailored solutions for your business needs.

Desktops & Servers

We actively monitor client hardware, software and network servers to provide real time configuration maintenance and regular updates for stability and security.

Business Networks

We provide end-to-end solution for the design, implementation & management of IP networks whether it be a single LAN or a WAN spanning multiple sites.

IT Support

We offer comprehensive multivendor support covering all aspects of your IT, providing a single point of contact for all service requests, incidents and alerts.

Backup & Data Protection

Your data is critical to your business and its ongoing operation. We specialise in no hassle automated backup plans that offer cost effective protection.

Other IT Solutions

Includes: Device Management, Managed Antivirus, Print Support, Licenses and Compliance, Procurement and Lifecycle Management, Industry Solutions.
